TO WHOM IT MAY CONCERN

Nick has been the auditor of our group of companies for many, many years.

Nick has always been a friendly, honest and most important part of our business throughout this time.

As well as providing the basic audit services required by law, he has been happy to answer any queries outside the normal audit requirements.

He has also always done everything in a most professional manner.

Nick's firm has always worked with fixed fees and this has made our budgeting so easy.

We would have no hesitation in recommending Nick or his firm to anyone requiring accounting services.

Yours faithfully

Jennifer Slapp

Group Finance and Administration Manager
