

# Atlas ChemDry®

25 May 2007

To whom it may concern

Nick Matsis is our accountant and he does more than just our tax returns. He is a man who understands small business.

Nick is a really good listener and makes an effort to understand the specifics of our business. He thinks about what we need and uses his specialist knowledge to offer us ideas that are distinctively suited to us.

Most amazingly of all, Nick talks in plain English and would have to be the most personable accountant I've ever met!

I have no hesitation in recommending his services.

Sincerely

Karen Raymond  
Director
