Banking, Finance & Home Loans

NRM Johnson is proud to advise you about a new service for you and your business.

It is vital these days that you have the support of professionals that not only provide independent advice, but also care about you and your financial well being. We have identified that many of our clients do not have this type of relationship with their banking and finance provider and we wish to assist to remedy this need.

We have searched for a number of years now for an independent professional advisor specialising in loans. We have now chosen Ray Rollison of RLR Finance Partners to fulfill this need for our clients.

Ray has over 25 years experience in banking, unlike many "household name" finance brokers who have little or no experience before buying their franchise, and then hold themselves out as experts.

We have had a long relationship with Ray both as a client, and in assisting our own business with its finance and banking needs. We recommend Ray for both his business acumen and the quality of personal service he provides to his clients, which aligns perfectly with the values we strive to offer.

We trust that you'll see some benefits in this service and if you require any assistance or have any queries, please do not hesitate to contact either our office, or Ray direct on 0432 017 080 or at ray.rollison@adam.com.au.

Yours sincerely,
Nicholas Matsis CPA

PS: *Ray is always happy to provide a no obligation quote for both existing and new loans you may require.*
